

TRISK

European Toxicology Risk Assessment Training Programme

2010-2011

The European Toxicology Risk Assessment Training Programme is organised by TRISK, a project that is funded by the European Union, in the framework of the Second Programme of Community Action in the field of Health (2008-2013).

Five European universities and one research consortium are partners in the TRISK project: University of Milan, Italy, University of Surrey, UK, Karolinska Institutet, Sweden, University of Düsseldorf, Germany, University of Utrecht, The Netherlands, Technoalimenti SCpA, Italy.

The objective of the training programme is to provide a comprehensive training in toxicological risk assessment that serves as a model for future European training in risk assessment for accredited European risk assessors.

The training programme is intended for individuals who have previous training or experience in toxicology and who would like to pursue a career in risk assessment in Europe in industry, regulatory authorities, consultancy or academia.

The training programme includes eight 1-week-long course modules, an applied training at an institution performing risk assessments and a final examination.

Deadline for application to the programme is October 16, 2009.
